## Introduction

McLoone has made the Strategic Business Decision to develop and implement the McLoone Business System (MBS). The MBS System will improve and sustain the overall performance of our business and products. Benefits include:

- Consistently provide products and services that meet or exceed customer requirements.
- The ability to plan and develop our annual Strategic Plan.
- Facilitating opportunities to enhance customer satisfaction.
- Address risks and opportunities.

The McLoone Business System Manual in compliance with ISO9001:2015 requirements and how they apply at McLoone. The manual can be used to introduce the elements of our MBS to our customers and other interested parties.

## 4 Context of McLoone

McLoone Management has determined the internal and external issues and items that are relevant to achieve the results of the MBS. McLoone utilizes and embraces the Rockefeller Habits.

### Related Documents

One Page Strategic Plan

### 4.2 Interested Parties

McLoone understands the effect and requirements of Interested Parties, so we have determined the interested parties along with the requirements and risks to ensure they are managed in the MBS. Operational Risk Management is not going to look at every possible risk that impacts an asset or employee. Rather, we look at the subset of risks that are Operational in nature.

### Related Documents

MCD 363 Risk Procedure

### 4.3 Scope of the McLoone Business System

McLoone has determined the scope of the MBS and is committed to applying all applicable requirements of the ISO 9001:2015 to our business system.

The scope of our MBS is available to internal and external parties. The MBS covers the following Scope:

- Full-Service manufacturer of product identification for OEM's and printers. Materials include metal and plastic nameplates, overlays, ID plates.
- Sub-Assembly of Components

### **Exclusion of the MBS:**

8.3 – Design and Development of Products and Services

### **Justification:**

McLoone does not perform design activities so the fulfillment of the requirements of this clause is not applicable to our MBS.

#### 4.4 Quality Management Systems and Processes

McLoone has established, documented, and implemented our MBS in accordance with the requirements of ISO 9001:2015. Documented Procedures support the processes. The MBS is maintained and improved using the following:

- Quality Policy
- Embracing the Rockefeller Habits
- One Page Strategic Plan
- KPI's
- Audit Results
- Analysis of Data
- Corrective and Preventative Actions
- Continual Improvements (ROCKS)
- Addressing Risks and Opportunities
- Management Review

Map Process (Teams)

#### 5 Leadership and Commitment

McLoone Leadership is actively involved in maintaining the MBS and is accountable for its overall effectiveness. Leadership is committed to continually improving the system by providing direction to the integration of the MBS requirements into each business process of our organization.

##### 5.1.2 Customer Focus

McLoone ensures customer requirements and expectations are defined and achieved. We are committed to achieving 100% customer satisfaction, by mitigating risks that may affect the conformity of products. We also ensure that Statutory and Regulatory requirements are met.

##### **Related Documents**

MCD 17 Customer Satisfaction

MCD 5 Management Review

##### 5.2 Quality Policy

McLoone Business Policy is defined and driven by the following principles and behaviors:

- Continual Improvement
- Customer Satisfaction
- Competency

The Quality Policy is included in this manual and is provided to each employee. It is available online in SharePoint and strategically posted within the plant.

McLoone Business Policy Our Business Policy is defined and driven by the following principles and behaviors:

- **Continual Improvement:** Drive continual improvement and innovation throughout our company.
- **Customer Satisfaction:** Build mutually profitable relationships by providing quality products on time that meet our customers' needs.
- **Competency:** Develop team member competencies for people to learn and grow.

McLoone strives to make a positive impact. Using these guiding principles, everyone at McLoone is accountable for growing internal and external customer satisfaction. We are committed to our Core Values and those of JSJ Corporation: Earn Trust, Learn by Doing, Work Together & Steward our Legacy.

### 5.3 Roles, Responsibilities, and Authorities

McLoone Leadership is actively involved in maintaining the MBS and is accountable for the overall effectiveness of the system. Leadership has initiated and fully supports the vision and strategic direction for the company and the MBS. Support through the Quality Policy, Core Values, Rockefeller Habits, and Quality Objectives will improve the effectiveness of the system. Leadership provides direction and support into each process and is committed to promoting Continuous Improvement, Risk -Based Thinking and motivation through the organization.

McLoone ensures that customer requirements and expectations are clearly defined and understood at all levels of the organization. We are committed to achieving 100% customer satisfaction by mitigating risks and assure Statutory and Regulatory requirements are identified and achieved.

 McLoone Intranet

### **8 Operation Planning and Control**

McLoone defines the necessary operational control(s) for our processes, this includes:

- Establishing criteria and control for processes and outsourcing for the acceptance of products.
- Ensuring resources are available.
- Maintaining documented information when necessary.
- Demonstrate conformity of products.
- Control changes and review consequences of unintended changes.
- Mitigate any adverse effects, as necessary.

#### **8.2.1 Customer Communication**

McLoone is a partner with our customers and communication is an essential part of meeting and exceeding customer expectations. We ensure:

- That we have all the necessary information relating to the product.
- Review of inquiries, contracts, and orders including changes
- Obtain customer feedback including complaints.
- Handling and controlling customer property.
- Contingency Plans

#### **8.2.2 Determining the Requirements for Products**

McLoone ensures that we can meet customer requirements for products and services, this includes but is not limited to:

- Statutory and regulatory requirements
- Requirements deemed necessary by McLoone.
- Acceptance that McLoone can meet the products and services provided.

#### **8.2.3 Review Requirements related to Products**

McLoone's ensures we can meet requirements offered to our customers for products and services. Contract and product review are performed prior to committing to supply products or services. The review process at a minimum includes:

- Requirements specified by the customer include delivery and post-delivery activities.

- Requirements that may not be specified by the customer, but necessary for the specified or intended use.
- Requirements specified by McLoone.
- Statutory and Regulatory Requirements for the products.
- Contract or order requirements differing from those previously expressed, reviewed, and resolved.
- Records of review and requirements are retained.

#### **8.2.4 8.4 Changes to Requirements for Products and Services**

McLoone's ensures that all documented information is amended when need and affected personnel are made aware of those changes.

##### **Related Documents**

MCD 219 Engineering Change Notification

#### **8.3 Design and Development of Products and Services**

The following sections are not applicable to McLoone.

- 8.3.1 General
- 8.3.2 Design and Development Planning
- 8.3.3 Design and Development Inputs
- 8.3.4 Design and Development Controls
- 8.3.5 Design and Development Outputs
- 8.3.6 Design and Development Changes

#### **8.4 Control of Externally Provided Processes, Products and Services**

McLoone maintains responsibility and control for the quality of all products purchased from external providers, including customer designated sources. Controls are established to ensure that products and services provided by suppliers will conform to our customer and McLoone requirements. Controls include:

- Approved Supplier List
- Review of Supplier Performance

##### **8.4.2 Type and Extent of Control**

McLoone ensures that our externally provided products and services do not adversely affect our ability to deliver conforming products to our customers. Suppliers with poor performance may or could be replaced unless corrective actions are taken to satisfy the concerns.

MCD 303 Release of Products and Services

MCD 85 Packing

#### **8.7 Control of Nonconforming Material**

McLoone ensures product that does not meet specification is identified and controlled. We take the appropriate action based on nonconformity, this applies to internal and external concerns. We deal with nonconforming in one or more of the following:

- Description of the nonconformity.
- Containment.
- Description of actions taken.
- Obtaining customer deviation.
- Identification of authority deciding the action.

##### **Related Documents**

MCD 19 Control of Nonconforming Product

### **9 Performance Evaluation**

The objectives of monitoring, measuring, and evaluation are process criteria, product characteristics, performance of the MBS. Results are evaluated. Reports are presented to Management for review and decision making on opportunities for improvement.

#### **9.1.2 Customer Satisfaction**

McLoone monitors our customers' perceptions. This is accomplished by:

- Customer Surveys
- On Time Delivery
- Customer Concerns

- Customer Supplied Report Cards

### 9.1.3 Analysis and Evaluation

McLoone performs the necessary analyses and evaluates data and information initiated from monitoring and measurement and uses the results to evaluate conformity of products, customer satisfaction, the conformity and effectiveness of the MBS, the performance of suppliers. This data is used to continually improve our processes.

### 9.2 Internal Audit

McLoone's schedules and conducts internal audits to ensure our system conforms to McLoone requirements along with the requirements of the ISO9001:2015 Standard. All Management Reviews are documented and retained.

- Defined audit intervals and criteria.
- Ensure auditors are impartial to the audited process.
- Reviews results from previous audits.
- Take corrective actions.
- Audits and Nonconformances are reported in Management Review.
- Retain documented evidence of audits performed and the results.

#### Related Documents

MCD 226 Internal Audits

### 9.3 Management Review

McLoone's Management Review process is planned and includes the following inputs:

- Status of actions from previous Management Reviews.
- Internal or external changes that are relevant to the MBS,
- Customer Satisfaction and feedback from interested parties.
- MBS Objectives (KPI Matrix), process performance, product conformity
- Nonconformities and corrective actions
- Audit results
- Supplier Performance
- Adequacy of Resources
- Action taken or opportunities to address risk.
- Continuous Improvement

The outputs from the Management Review include:

- Opportunities for improvements.
- Changes to the MBS.
- Resource needs.
